Portfolio

Bangalore,
Karnataka

PROFILE SUMMARY

- Entry-level **Data Analyst / Business Analyst** with an **MCA in Data Science (AI/ML)** and BCA, supported by hands-on experience in data analysis, reporting, data visualization, and business-focused problem-solving.
- Google Data Analytics Professional Certificate** holder with practical understanding of the end-to-end analytics lifecycle, including data cleaning, preparation, exploratory analysis, visualization, KPI analysis, and insight generation.
- Completed a **Machine Learning Internship** involving data preprocessing, exploratory data analysis, predictive modeling, model evaluation, and documentation using Python, Pandas, NumPy, and scikit-learn.
- Applied analytics skills across **customer transaction analysis, CRM/donor analytics, trend identification, KPI reporting, and dashboard development**, including analysis of **3,900 customer transactions** to generate actionable business insights.
- Hands-on experience developing **Power BI dashboards and Excel/Power Query solutions**, translating raw data into clear reports and business insights to support data-driven decision-making.

PROJECTS

Customer Shopping Behavior Analysis | Python, Pandas, NumPy, Matplotlib, SQL, Power BI | 2026 |

Project Description: Analyzed **3,900 customer transactions** to identify customer purchasing behavior, spending patterns, product trends, and actionable business insights for data-driven decision-making.

- Data Preparation & Cleaning:** Cleaned, transformed, and validated transactional data using **Python and Pandas**, addressing data quality issues and preparing the dataset for analysis.
- Exploratory Data Analysis:** Analyzed **customer behavior, purchase patterns, product categories, spending trends, and key performance indicators** using Python and statistical analysis techniques.
- Business Insights:** Identified meaningful trends and customer segments from transaction data, translating analytical findings into **actionable business insights**.
- Visualization & Reporting:** Created clear visualizations and reports to communicate findings and support **data-driven business decisions**.

Customer Relationship Management (CRM) Donor Analytics Dashboard | Power BI, Excel, Power Query, Kaggle | May 2026 – Jun 2026 | [GitHub](#)

Project Description: Analyzed donor CRM data to identify **donor segments, contribution patterns, and KPIs** for data-driven decision-making.

- Data Preparation:** Cleaned and transformed data using **Excel and Power Query** for reliable analysis and visualization.
- Dashboard & Insights:** Built an interactive **Power BI dashboard** with **KPI cards, bar, donut, column, and scatter charts, and slicers** for self-service analysis.
- Reporting:** Delivered an end-to-end workflow from **data cleaning and visualization to insight reporting**, documenting findings for stakeholders.

ChefBot – AI-Powered Recipe Recommendation Platform | Python, Flask, MySQL, Jinja2, HTML, CSS, Bootstrap, JavaScript | Apr 2026 – Jul 2026 | [GitHub](#)

Project Description: Developed a recipe recommendation platform matching recipe to **ingredients, dietary preferences, and allergy constraints**.

- Recommendation Engine:** Developed an **ingredient-overlap scoring algorithm** to rank recipes by ingredient availability, dietary fit, and allergy safety.
- Application & Database:** Built the platform using **Python/Flask** and integrated **MySQL** for structured recipe, user, preference, and recommendation data.

WORK EXPERIENCE

Machine Learning Intern | Prinston Smart Engineer

Bangalore, India | Apr 2024 – May 2024

- Predictive Modeling:** Developed a diamond price prediction model using **Python, Pandas & scikit-learn**, achieving **84% prediction accuracy** for data-driven pricing.
- Data Preprocessing:** Cleaned raw data using **Pandas & NumPy**, applying **median imputation** and **categorical encoding** to improve data quality.
- EDA & Insights:** Conducted **Exploratory Data Analysis (EDA)** on feature distributions and correlations to identify key diamond pricing drivers.
- Model Evaluation:** Trained and evaluated a **Linear Regression** model using an **80:20 train-test split** to validate prediction reliability.
- Documentation & Reporting:** Documented the end-to-end **data analytics workflow**, from preprocessing through evaluation, ensuring **reproducibility and stakeholder-ready reporting**.

CORE COMPETENCIES

- | | | |
|-----------------------------------|----------------------------------|--|
| ●● Business Requirements Analysis | ●● KPI & Metrics Management | ●● Customer & Market Insights |
| ●● Data-Driven Decision Support | ●● Data Quality Management | ●● Stakeholder Reporting & Communication |
| ●● Business Intelligence | ●● Business Performance Analysis | ●● Process & Operational Improvement |

TECHNICAL SKILLS

- | | |
|--|--|
| ●● Programming & Querying: Python, SQL | ●● Databases: PostgreSQL, MySQL, Relational Database Design, Data Retrieval |
| ●● Data Analytics: Pandas, NumPy, Matplotlib, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis | ●● Machine Learning: scikit-learn, Linear Regression, Regression Analysis, Model Evaluation |
| ●● Business Intelligence & Visualization: Power BI, Excel, Tableau, Power Query, DAX, Dashboard Development, Data Visualization | ●● Tools: Git, GitHub, VS Code |

EDUCATION

- | | |
|--|--|
| ●● Master of Computer Applications (MCA) in Data Science (AI/ML) Presidency College, Bangalore City University Bangalore 77.5% 2024 – 2026 | ●● Bachelor of Computer Applications (BCA) The Oxford College of Science CGPA: 8 2021 – 2024 |
|--|--|

CERTIFICATIONS & ACHIEVEMENTS

- Google Data Analytics Professional Certificate** | Google | 2026
- Build Data Visualization and Reports Using Power BI** | Coursera | 2026
- Data Analytics Job Simulation** | Deloitte Australia, Forage | 2026
- Agile Project Management** | HP LIFE | 2025
